

Client chooses a template to customize. We Construct a 'Flow'.
[Flow covers number of pages, services and cost].

25% is due if flow is approved - changes can be made according to the client.
[cost is declared on the flow].

We offer the first customization of the chosen template template.
[the design of one page].

25% of cost is due if customization is approved.

Another free customization can be provided if client
doesn't approve customization #1.

If client requires more versions of customizations
each will cost 300 EGP.

Construction of the website.

3 changes of text or pics are allowed. each change
after will cost 10% of total cost.

Changes to design/ flash/ dynamic backend/ structure
will be considered as separate tasks.

The designing process ends if the client signs out or if he/she didn't ask for any more
changes in a period of 5 business days after website delivery and/or uploading to
chosen host (if applicable).

Payment of the 50% of the cost is due here.

Also the sources of all files will be delivered on a CD/DVD to the client. A manual will
be delivered for dynamic websites with admin areas.
